Hedlund Secures Funds for Myles Standish Monument

Senator Robert Hedlund (R-Weymouth) was able to secure funding in the \$4.1 billion Transportation Bond Bill, to allow for completion of renovations to the Myles Standish monument in South Duxbury. Hedlund's amendment would allow for the \$108,607 needed to complete the project to be released to Department of Environmental Affairs, who has been overseeing the repairs.

This project which began 8 years ago, will update landscaping and structural features of the monument. There have already been improvements to various parts of the monument, and Hedlund is looking forward to the future changes. "The Myles Standish monument is very important to the people of Duxbury, and I'm glad it will continue to receive the attention it rightfully deserves," Hedlund said.
